

YOUR EYE EXAM

ACCESSIBLE. EASY. IMPACTFUL.

Taking care of your eyes doesn't just mean having clear vision. Your eye care provider identifies both vision correction needs and emerging health issues during your annual eye exam.

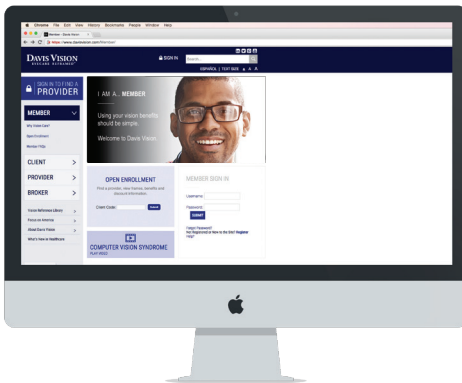

Did you know all of your body's veins and arteries end in your eye? That's why your eye exam is key in detecting early chronic and systemic diseases like diabetes and hypertension. Your eye exam is one of the most important preventative care services available to you.

Unidentified vision problems can cause headaches and dizziness and can hinder learning.

An eye exam takes less than an hour and consists of quick and simple visual acuity tests.

Eye exams can detect conditions like diabetes early, thus preventing future unnecessary medical costs.

PROTECT YOURSELF AND TAKE CONTROL

Take action by logging onto www.davisvision.com and clicking on the **MEMBER** tab. Input your Client Code or log in as a member to find a provider, view frames, and access your full benefit and discount information.

Schedule your annual eye exam today to make the most impactful investment in your overall health.
